

Based on international advanced design concept, upgrade the structure, adapt to the needs of various users.

Adopt international advanced production facilities—laser cutting machines, automatic welding

robots, CNC facilities etc, to achieve top standard tooling operations.

Combine chemical treatment process and electrostatic spraying process, ensure perfect appearance.

Main tube thickness: 3mm, combine oval tube thickness: 50*100mm

Strong and durable, supporting varieties of exercising, necessary for gym clubs.

The tapered seat and pad angles allow the user to establish a comfortable "three point" stance position that increases user stability during lifts.

Specifications

DIM: (L) 710*(W) 510*(H) 900mm

N. W. : 25KG
